

Emil Shain

Aspiring Product Engineer

✉ emilshain.official@gmail.com 📞 +91 96332 85499 📍 Thrissur, Kerala, India [in emilshain](#) [emilshain](#)

Aspiring Product Engineer with a strong foundation in frontend development & UI/UX. 3× hackathon winner (2 national-level), consistently owning end-to-end design and frontend execution — from Figma wireframes to production React/Next.js interfaces — under 24–36 hour deadlines.

PROJECTS

CascadeNet, AI-Driven Flood Prediction & Response Coordination Platform React · TypeScript · GSAP · Tailwind CSS · Figma - Designed complete UI/UX in Figma and built the frontend for a multi-stakeholder disaster coordination dashboard serving 5 government agencies (Dam Authority, NDRF, District Collector, Hospitals, Public). - Built interactive cascade visualization rendering real-time infrastructure failure propagation across 100 scenarios using GSAP animations and dynamic data mapping. - Integrated frontend with team's FastAPI backend and WebSocket feeds to display live LSTM flood prediction outputs on a responsive, role-specific dashboard. 1st Place — Hackathena 2026 (National) 2nd Runner-Up — Astrava 2026 (1,200+ registrations, National)	Aug 2025 – Present
Sentinel AI, ML Security Framework for Backdoor Detection in Pre-Trained Models Next.js · TypeScript · Tailwind CSS · Figma - Designed and built a monitoring dashboard visualizing behavioral divergence scores, trigger injection results, and model trust ratings for security analysts. - Created interactive pipeline visualization (baseline profiling → trigger injection → divergence scoring) making complex ML workflows accessible to non-technical stakeholders. - Developed responsive data visualization components displaying real-time perturbation analysis from the team's PyTorch backend. 2nd Place — BeachHack H4C 36-hr Hackathon	Dec 2025 – Present

AWARDS

1st Place, Hackathena 2026, Jyothi Engineering College, Cheruthuruthy (National)	13 Mar 2026
2nd Runner Up, Astrava Hackathon 2026, Dr. Ambedkar Institute of Technology, Bengaluru (National)	07 Mar 2026
2nd Place, Hack4Christ, BeachHack 7, Christ College of Engineering, Irinjalakuda	03 Feb 2025
Top 100, Fontober 2026, Designare (National)	Oct 2025
2nd Place, Debugging Contest, Christ College of Engineering	Jan 2025

TOP SKILLS

Frontend	Design	Other
React.js · Next.js · TypeScript · GSAP · Tailwind CSS · Responsive Design	Figma · Adobe Illustrator · Adobe Photoshop · Motion Design · Prototyping	Python · C · Git/GitHub

EXPERIENCE

Chief Creative Officer — IEDC, Christ College of Engineering - Led visual identity and creative direction for the college's Innovation & Entrepreneurship Development Cell. - Volunteered for IEDC Summit 2026, Thrissur Cluster Hackathon. - Designed event branding and promotional creatives for events.	Jan 2026 – Present
--	--------------------

EDUCATION

B.Tech - CSE, Christ College of Engineering	2025 – Present Irinjalakuda
